INSTALLATION FOR
PART NO. 1228
2010 DODGE
2500/3500 RAM
GRILLGUARD

Step 1: Remove the two factory bottom bolts on the tow hooks. DO NOT remove the tow hooks, only the bolts.

Step 2: Put TEE bracket in place and bolt on with 2 - 3/8 x 2 grade 8 bolts as shown.

Step 3: Remove two inside factory bumper nuts. Place bottom inside bracket on the outside of the frame and bolt on with the same factory nuts. Both legs to face the inside as shown.

Step 4: Place bottom bracket on the inside of the upright, so you can mark and cut a hole on the plastic guard. Then bolt to the grill guard and to the bottom inside bracket.

Step 5: Align and tighten nuts and bolts.

12 – ½ x 2 Grade 5 Bolt
12 – ½ Grade 5 Nut
12 – ½ Grade 5 Lock Washer
24 – ½ Flat Washer
